## SUMMARY

I am currently a software engineering student. I used to participate in web projects at school as a Frontend developer with Javascript programming language (especially React Js framework) . I am passionate about learning new technologies to increase the quality of work and I always look forward to sharing my knowledge with the members of the company. Hope I can contribute to the development of the company

## SKILL

- **Language:** Javascript, HTML/CSS
- **Framework/ Platforms:** ReactJs, Material UI, Tailwinds CSS, ...
- **Database:** MS SQL Server
- **Tools available:** Figma, Github, VSCode
- **Other:**
  - Good at problem-solving skills, requirement analysis, and teamwork skills.
  - Quick to learn new technologies, creative, eager to learn, and strive for progress
